We're the only sausage company that uses locally-grown signature chicken and turkey. Our chicken is Petaluma's Rocky Jr. and our turkey is Sonoma's Diestel. Both are grown without hormones or antibiotics and are free range. We continue to use potato instead of fat for moisture, binder and texture. "Be a healthy fellow and eat Montibella."

The new party food? Sausages - includes recipes

While savoring lemon-roasted chicken in a Chinese restaurant, Skip Lott, owner of Montibella Sausage Company, was seized by a wonderfully obvious idea. Why not put these ingredients in sausage? And so he did, joining the ranks of sausage makers who have made a major leap beyond bratwurst as they help rewrite the script for easy entertaining.
