What it *IS*

Petite Sirah

Rich, ripe fruit
Dark, inky, and chewy
Voluptuous, full-bodied
Nothing petite about this varietal
Son of Syrah (a direct descendent)
Transplanted from France as Durif
Looks and tastes even better in 10 years
Ages as gracefully as other full-bodied reds
America's true, noble varietal (since the 1880's)
Survivor (Phylloxera, World Wars, Prohibition, Depression)

What it *ISN'T*...

Syrah
